## **DETAILED ACTION**

### ***Response to Amendment***

1. No amendments have been made to the claims in the response submitted on December 2, 2008. Claims 11 and 21 are cancelled. **Claims 1-10, 12-20, and 22-29 are pending and under consideration.**

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on December 2, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,926,919 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 22-29 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 7,063,884. Although the conflicting claims are not identical, they are not patentably distinct from each other.

Claim 1 in U.S. Patent No. 7,063,884 recites a stent comprising a coating layer, the coating layer having a hydrophobic component and a hydrophilic component, wherein a region of the coating layer on or about the outermost surface of the coating layer has a higher content or concentration of the hydrophilic component than the hydrophobic component and wherein the hydrophilic component has a solubility parameter higher than about 8.5 (cal/cm<sup>3</sup>)<sup>1/2</sup> and claim 14 recites that the ratio of the hydrophilic component to the hydrophobic component is between about 1:100 and about 1:9.

Accordingly, it would have been obvious for one having ordinary skill in the art to form the instantly claimed surface modified coating on an implantable device having a higher concentration of the first hydrophilic or amphiphilic polymer on the outer surface thereof than the average concentration of the first hydrophilic or amphiphilic polymer throughout the coating layer given that such a structure is claimed in U.S. Patent No. 7,063,884.

***Allowable Subject Matter***

4. Claims 1-10 and 12-20 are allowed.

***Response to Arguments***

5. Applicant's arguments presented on December 2, 2008 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHEEBA AHMED whose telephone number is (571)272-1504. The examiner can normally be reached on Monday-Friday from 8am to 4:30pm.
